LEGISLATIVE COUNSEL'S DIGEST

AB 105, as amended, Committee on Budget. Budget Act of 2015. Education finance: local control funding formula.

(1) Existing law establishes the public school system in this state, and, among other things, provides for the establishment of county superintendents of schools, school districts, and charter schools throughout the state and for their provision of instruction at the public elementary and secondary schools these local educational agencies maintain. Existing law, before July 1, 2013, established a public school financing system that required funding for county superintendents of schools and school districts to be calculated pursuant to a revenue limit, as specified, and required funding for charter schools to be calculated pursuant to a general-purpose entitlement, except as provided, and required the revenue limit and general-purpose entitlement to be composed of, among other things, state aid and certain local revenues. Existing law also establishes various categorical education programs under which funding was provided for specific educational purposes. Existing law, commencing July 1, 2013, revised and recast the provisions related to the public financing system by requiring state funding for county superintendents of schools, school districts, and charter schools that previously received a general-purpose entitlement to be calculated pursuant to a local control funding formula, as specified.

This bill would, among other things, repeal provisions requiring or authorizing many categorical education programs. The bill would repeal provisions relating to the revenue limit and would replace references to the former review limit and general-purpose entitlement calculations with the references to the current local control funding formula calculation. The bill would, commencing with the 2014–15 fiscal year, revise the authorization for a school participating in a special assistance alternative authorized under the federal National School Lunch Program to establish a base year for purposes of the local control funding formula for determining pupils eligible for free or reduced-price meals, as specified. The bill would require specified information to be included in an alternative household income data collection form for the federal National School Lunch Program for purposes of the local control funding formula. The bill would also change the funding calculations for necessary small schools.

-3- AB 105

(2) Existing law requires a county superintendent of schools to annually present a report, on or before August 15, to the governing board of the school district and the Superintendent of Public Instruction regarding the fiscal solvency of a school district with a disapproved budget, qualified interim certification, or a negative interim certification, or that is determined to be in a position of fiscal uncertainty.

This bill would instead require a county superintendent of schools to present the report on or before September 15.

(3) Existing law specifies how funds appropriated pursuant to a specified budget item of the Budget Act of 2006 for specified county offices of education for site visits shall be allocated.

This bill would delete that provision.

(4) Existing law, on or before July 1 of each fiscal year, requires the county board of education to adopt an annual budget for the budget year and file the budget with the Superintendent of Public Instruction, the county board of supervisors, and the county auditor. Existing law requires the Superintendent to examine the budget, as specified, and, on or before August 15, approve or disapprove the budget, as specified. If the Superintendent disapproves the budget, existing law requires the county superintendent of schools and the county board of education, on or before September 8, to review recommendations of the Superintendent at a regularly scheduled meeting of the county board of education and respond to those recommendations, as specified. Existing law requires the Superintendent to examine a revised budget, as specified, and, on or before October 8, to approve or disapprove the revised budget. If the Superintendent disapproves the budget, existing law requires him or her to call for the formation of a budget review committee, and requires the budget review committee, on or before October 31, to review the proposed budget, as specified. If the budget review committee disapproves the budget of the county office of education, existing law requires the Superintendent to either approve or disapprove the budget, as specified. If the Superintendent disapproves the budget, existing law authorizes the Superintendent or his or her designee to do certain things for the remainder of the year, including, among others, to develop and adopt, in consultation with the county superintendent of schools and the county board of education, on or before November 30, a fiscal plan and budget for the county office of education, as specified.

AB 105 —4—

This bill would, among other things, extend those dates by one month to September 15, October 8, November 8, November 30, and December 31, respectively.

(5) Existing law, on or before July 1 of each fiscal year, requires a school district to adopt a budget for the subsequent fiscal year and file the adopted budget with the county superintendent of schools, as specified. Existing law requires the county superintendent of schools to examine the adopted budget, as specified, make certain determinations related to the adopted budget, and, on or before August 15, approve, conditionally approve, or disapprove the adopted budget for each school district, as specified. If the county superintendent of schools conditionally approves or disapproves the budget, existing law requires the governing board of the school district, in conjunction with the county superintendent of schools, on or before September 8, to review and respond to the recommendations of the county superintendent of schools as specified. Existing law requires the county superintendent of schools to examine the revised budget to make certain determinations and, on or before October 8, to approve or disapprove the revised budget, as specified. If the county superintendent of schools disapproves the budget, existing law requires him or her to call for the formation of a budget review committee, and requires the budget review committee, on or before October 31, to review the proposed budget, as specified. If the budget review committee disapproves the budget of the school district, existing law requires the Superintendent of Public Instruction to either approve or disapprove the budget, as specified. If the Superintendent disapproves the budget, existing law requires the county superintendent of schools to do certain things, including, among others, on or before November 30, develop and adopt, in consultation with the governing board of the school district and the Superintendent, a fiscal plan and budget for the school district, as specified.

This bill would, among other things, extend those dates by one month to September 15, October 8, November 8, November 30, and December 31, respectively.

- (6) This bill would appropriate \$5,994,417,000 from the General Fund to the Superintendent of Public Instruction for purposes of allocating those funds to school districts and charter schools pursuant to the local control funding formula for those local educational agencies.
- (7) This bill also would make conforming changes, would correct cross-references, would delete obsolete provisions, and would make other nonsubstantive changes.

5 AB 105

- (8) Funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.
- (9) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

This bill would express the intent of the Legislature to enact statutory changes relating to the Budget Act of 2015.

Vote: majority. Appropriation: no yes. Fiscal committee: no yes. State-mandated local program: no.

- (A) For each school district that had its revenue limit funding for the 1996–97 fiscal year calculated on the basis of its 1996–97 average daily attendance pursuant to paragraph (1) of subdivision (a) of Section 42238.5, the revised revenue limit per unit of average daily attendance shall equal the adjusted total base revenue limit determined pursuant to paragraph (2) divided by the adjusted average daily attendance determined pursuant to subparagraph (A) of paragraph (3).

- (2) Determine the amount of the 1996–97 total base revenue limit funding received pursuant to Section 42238 for growth and nongrowth average daily attendance, including, as nongrowth average daily attendance, attendance in necessary small schools in the year determined to be the greater pursuant to paragraph (1) of subdivision (a) of Section 42238.5 for the 1996–97 fiscal year, but excluding attendance in nonpublic, nonsectarian schools, county office operated special education, and county community school programs.

absences pursuant to subdivision (b) of Section 46010 as that subdivision read on July 1, 1996.

- (B) Determine the second principal apportionment average daily attendance for the 1996–97 fiscal year, including attendance in necessary small schools and attendance for excused absences pursuant to subdivision (b) of Section 46010 as it read on July 1, 1996, but excluding attendance, including attendance for excused absences, in nonpublic, nonsectarian schools, county-operated special education programs, and county community schools.
- (C) Determine the second principal apportionment average daily attendance for the 1996–97 fiscal year, including attendance in necessary small schools, but excluding attendance in nonpublic, nonsectarian schools, county-operated special education programs, and county community schools and for excused absences pursuant to subdivision (b) of Section 46010 as it read on July 1, 1996.
- (D) Calculate the adjusted revenue limit average daily attendance by multiplying the average daily attendance figure used to make the determination set forth in paragraph (2) by the quotient of the amount determined pursuant to subparagraph (C) divided by the amount determined pursuant to subparagraph (B).
- (4) Recalculate the 1997–98 fiscal year revenue limit per unit of average daily attendance to reflect the revision in the 1996–97 revenue limit per unit of average daily attendance determined pursuant to paragraph (1).
- (b) The calculations made pursuant to paragraphs (1) and (4) of subdivision (a) shall not be used for apportionment purposes for either of the fiscal years referred to in those paragraphs or for adjustments for those years.
- (c) If the governing board of any school district demonstrates to the satisfaction of the Superintendent of Public Instruction that, because of extraordinary circumstances beyond the control of the school district, the amount of absences excused in one or more district programs in fiscal year 1996–97 pursuant to subdivision (b) of Section 46010 as it read on July 1, 1996, was significantly lower than it would ordinarily have been in comparison to the amount of actual attendance in fiscal year 1996–97, the Superintendent of Public Instruction shall make a compensating adjustment, consistent with the provisions of Section 2 of the Education Code, in the calculation set forth in this section.

 3 (b) A county office of education shall provide the data required

- (b) A county office of education shall provide the data required to perform the calculation specified in paragraph (1) of subdivision (a) to the Superintendent of Public Instruction in order to be eligible for the adjustment pursuant to subdivision (a).
- SEC. 65. Section 42238.11 of the Education Code is repealed. 42238.11. Notwithstanding any other provision of law, for the 1994–95 fiscal year the county superintendent of schools shall reduce the total revenue limit for each school district in the jurisdiction of the county superintendent of schools by the amount of the decreased employer contributions to the Public Employees' Retirement System resulting from the enactment of Chapter 330 of the Statutes of 1982, adjusted for any changes in those contributions resulting from subsequent changes in employer contribution rates, excluding rate changes due to the direct transfer of the state-mandated portion of the employer contributions to the Public Employees' Retirement System, through the 1994–95 fiscal year. The reduction shall be calculated for each school district as follows:
- (a) Determine the amount of employer contributions that would have been made in the 1994–95 fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect immediately prior to the enactment of Chapter 330 of the Statutes of 1982 were in effect during the 1994–95 fiscal year.

For purposes of this calculation, no school district shall have a contribution rate higher than 13.020 percent.

- (b) Subtract from the amount determined in subdivision (a) the actual amount of employer contributions made to the Public Employees' Retirement System in the 1994–95 fiscal year.
- (c) For the purposes of this section, employer contributions to the Public Employees' Retirement System for any of the following positions shall be excluded from the calculation specified above:
- (1) Positions or portions of positions supported by federal funds that are subject to supplanting restrictions.
- (2) Positions supported by funds received pursuant to Section 42243.6.
 - (3) Positions supported, to the extent of employer contributions not exceeding twenty-five thousand dollars (\$25,000) by any single educational agency, from a non-General Fund revenue source

determined to be properly excludable from this section by the Superintendent of Public Instruction with the approval of the Director of Finance.

- (d) For accounting purposes, the reduction made by this provision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent of Public Instruction.
- (e) The amount of the reduction made by this section shall not be adjusted by the deficit factor calculated pursuant to Section 42238.145.

It is the intent of the Legislature to make adjustments to school district revenue limits for the 1994–95 fiscal year to reflect savings that these districts will realize in the contributions to the Public Employees' Retirement System due to a reduced contribution rate for the 1994–95 fiscal year.

SEC. 66. Section 42238.12 of the Education Code is repealed. 42238.12. (a) For the 1995–96 fiscal year and each fiscal year thereafter, the county superintendent of schools shall adjust the total revenue limit for each school district in the jurisdiction of the county superintendent of schools by the amount of increased or decreased employer contributions to the Public Employees' Retirement System resulting from the enactment of Chapter 330 of the Statutes of 1982, adjusted for any changes in those contributions resulting from subsequent changes in employer contribution rates, excluding rate changes due to the direct transfer of the state-mandated portion of the employer contributions to the Public Employees' Retirement System, through the current fiscal year. The adjustment shall be calculated for each school district, as follows:

- (1) (A) Determine the amount of employer contributions that would have been made in the current fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect immediately before the enactment of Chapter 330 of the Statutes of 1982 were in effect during the current fiscal year.
- (B) For purposes of this calculation, no school district shall have a contribution rate higher than 13.020 percent.

- (4) For the purpose of this section, employer contributions to the Public Employees' Retirement System for any of the following positions shall be excluded from the calculation specified above:
- (A) Positions or portions of positions supported by federal funds that are subject to supplanting restrictions.
- (B) Positions supported by funds received pursuant to Section 41540 that are established in order to satisfy court-ordered desegregation requirements.
- (C) Positions supported, to the extent of employers' contributions not exceeding twenty-five thousand dollars (\$25,000) by any single educational agency, from a non-General Fund revenue source determined to be properly excludable from this section by the Superintendent with the approval of the Director of Finance. Commencing in the 2002–03 fiscal year, only positions supported from a non-General Fund revenue source determined to be properly excludable as identified for a particular local educational agency or pursuant to a blanket waiver by the Superintendent and the Director of Finance, before the 2002–03 fiscal year, may be excluded pursuant to this paragraph.
- (5) For accounting purposes, any reduction to school district revenue limits made by this provision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent.
- (6) The amount of the increase or decrease to the revenue limits of school districts computed pursuant to paragraph (3) for the 1995–96 to 2002–03 fiscal years, inclusive, may not be adjusted by the deficit factor applied to the revenue limit of each school district pursuant to Section 42238.145.
- (7) For the 2003–04 fiscal year and any fiscal year thereafter, the revenue limit reduction specified in Section 42238.146 may not be applied to the amount of the increase or decrease to the

The Superintendent of Public Instruction shall deduct from the amount computed pursuant to subdivision (e) of Section 52335.2 for each ROC/P operated by a county office of education any local revenue that would otherwise be deemed restricted and not available for expenditure in the current fiscal year pursuant to subdivision (e) of Section 2558. SEC. 114. Section 52335.4 of the Education Code is repealed. 52335.4. The Superintendent of Public Instruction shall determine each ROC/P's share of funded growth average daily attendance by computing the sum of subdivisions (a), (b), and (c):

- (a) Subtract the ROC/P's annual units of funded average daily attendance for the prior year from the ROC/P's annual units of funded average daily attendance for the second prior year. If the amount computed pursuant to this subdivision is negative, it shall be deemed to be zero.
- (b) Allocate 25 percent of the allowable growth average daily attendance funded in the Budget Act to low participation ROC/P's, pursuant to criteria established by the Superintendent of Public Instruction.
- (c) (1) Subtract the statewide sum of the growth average daily attendance computed pursuant to subdivisions (a) and (b) from the allowable growth in average daily attendance funded in the Budget Act. If the amount computed is negative, it shall be deemed to be zero.
- (2) (A) Calculate the ROC/P's pro rata share of the funded growth average daily attendance calculated pursuant to paragraph (1), based on the prior year average daily attendance in grades 9 to 12, inclusive, for the school districts served by the ROC/P in relation to the total statewide prior year average daily attendance in grades 9 to 12, inclusive. For purposes of the calculation required by this paragraph, the Superintendent of Public Instruction shall use the average daily attendance reported for the second principal apportionment of the prior year.

AB 105 — 142 —

(B) In calculating the pro rata share of funded growth average daily attendance, the Superintendent of Public Instruction shall ensure that each ROC/P is provided at least 10 units of allowed growth average daily attendance pursuant to subdivisions (b) and (c).

- (d) (1) It is the intent of the Legislature that each ROC/P use its share of funded growth average daily attendance provided pursuant to this section to serve pupils in grades 9 to 12, inclusive, unless the governing board or governing boards of the school district or districts overseeing the ROC/P determine that the needs of pupils in grades 9 to 12, inclusive, have been met.
- (2) It is the intent of the Legislature that, if a determination is made pursuant to paragraph (1) that the needs of pupils in grades 9 to 12, inclusive, have been met, then the governing board or governing boards of the school district or districts overseeing the ROC/P may authorize the ROC/P to use its share of funded growth average daily attendance provided pursuant to this section to serve adults.
- SEC. 115. Section 52335.5 of the Education Code is repealed. 52335.5. In the event that the funds appropriated for purposes of this article are insufficient to fully fund the apportionments herein authorized, the Superintendent of Public Instruction shall reduce the amounts computed pursuant to Section 52335.2 for each ROC/P based on equal amounts per unit of average daily attendance, consistent with the following priorities:
- (a) First priority shall be given to fully funding average daily attendance that is less than or equal to the average daily attendance funded in the prior fiscal year.
- (b) Second priority shall be given to fully funding each ROC/P's share of funded growth average daily attendance determined pursuant to Section 52335.4.
- (c) Third priority shall be given to funding current year annual average daily attendance that exceeds the sum of the average daily attendance specified in subdivisions (a) and (b).
- SEC. 116. Section 52335.6 of the Education Code is repealed. 52335.6. For purposes of allocating allowable growth average daily attendance to low participation ROC/Ps, the Superintendent of Public Instruction shall:

—143 — AB 105

(a) Calculate for each ROC/P the prior year average daily attendance in grades 9 to 12, inclusive, for the school districts served by the ROC/P.

- (b) Divide the funded average daily attendance of the ROC/P for the prior year by the amount calculated in subdivision (a).
- (c) Divide the statewide funded ROC/P average daily attendance for the prior year by the prior year statewide average daily attendance in grades 9 to 12, inclusive.
- (d) For each ROC/P where the amount calculated in subdivision (b) is less than the amount calculated in subdivision (c), calculate the ROC/P's pro rata share of allowable growth daily attendance for low participation ROC/Ps, based on the average daily attendance needed by the ROC/P to be at the percentage of participation calculated in subdivision (c) in relation to the total of average daily attendance needed by low participation ROC/Ps for each ROC/P to be at the percentage of participation calculated in subdivision (c).
